THE CONCEPT

We deliver fully managed campaigns using the Torpedo Motion vehicle - positioned across high-footfall locations where people stop, move and engage.

Each campaign features bespoke 3D models, engineered for your brand to create striking real-world presence - from corporate-led campaigns to bold, high-impact activations.

Integrated ambient LED lighting enhances visibility day and night.

Unlike static advertising, this creates **movement, interaction and real-world engagement.**

It doesn't ask to be seen - it gets noticed.

DESIGNED TO CAPTURE ATTENTION INSTANTLY

TORPEDOMOTION.COM

FULLY MANAGED

Monthly campaigns - vehicle, deployment, positioning and execution handled throughout.

This isn't a prop. It's a purpose-built campaign installation.

Designed to drive awareness, footfall and real-world engagement.

A modern alternative to static billboard advertising.

CAMPAIGNS ACROSS DORSET

Weymouth * Portland
Dorchester * Bournemouth

Each campaign is custom designed around your brand - from concept to execution.

An example campaign for Weymouth positioned across key engagement zones
